

Control Panel Not Responding

If you have a Legend Series spa, all models EXCEPT the LSI557 / LSX557, the control panel may be locked.

To lock the Control Panel:

1. Press “Time” “Jets 1” then “Warm” within 3 seconds.
2. When locked, the PL indicator light will light.
3. All buttons are frozen except the “Time” button.

To unlock the Control Panel:

1. Press “Time” “Jets 1” then “Cool” within 3 seconds.
2. When unlocked, the PL indicator light will turn off.

If you do not have a Legend series spa mentioned above or the above steps did not work, please complete a [Service Request Form](#). *(attach Service Request Form document)*
